WIN VS. WAR™

INSPIRE TO LEARN

PARTICIPATE

Participating in the "Win vs. War" game designed by the "IBDL" learning group helps participants keep up with the constant changes in the business world.

Game Time

6 hours

full day of training

Tools and Resources

- Trainers to lead the team-building game.
- Game tools provided by IBDL.
- Audiovisual equipment for presentation during the game.

How to play?

- Participants are divided into teams, with each team representing the government of a particular country.

EXPLORE

It will help you explore the skills of your team members in your workplace, such as their managerial, planning, cooperation, and creativity abilities that they need to succeed in business management. They will also acquire skills such as how to deal with customers and meet their needs, improve company services, as well as how to deal with competitors and identify appropriate strategies to improve the institution's position in the market.

DEVELOP

Your team's capabilities will grow in many business-related areas such as planning, organization, resource utilization, competitive environment analysis, leadership, decision-making, financial management, negotiation skills, interaction and collaboration, innovation and creativity, self-confidence, continuous learning, and adaptability.
